

## Temperature Logger EBI-20 TH

Technical Data	
Type	EBI-20 TH
Measuring range temperature	-30°C to +60°C
Measuring range humidity	10% to 90% rH
Accuracy temperature	± 0.5°C ± 1 digit
Accuracy humidity	± 3% rH
Resolution temperature	0.1°C
Resolution humidity	0.1% rH
Memory	8 000 samples
Sensor	Pt 1000
Operating temperature	-30°C to +60°C
Storage temperature	-40°C to +60°C
Measuring rate	1 min to 24 h
Measuring mode	Automatic with loop, start/stop or start with set measuring rate
Battery	3 V lithium, can be replaced by user
Battery life	approx. 2 years
Protection class	IP 67
Housing	ABS
Dimensions	69 x 48 x 22mm

## Attributes

- Excellent price/performance ratio
- Automatic recording of temperature and humidity data
- Stores 8 000 readings, can be read off at any time
- No network connection required
- Programming and evaluation with PC
- Waterproof
- Visual alarm
- Min/max values on display
- Replaceable battery
- Factory calibration certificate

## EBI-20 TH Starter-Set contains:

- 1 x EBI-20 TH data logger
- 1 x Winlog.basic evaluation software
- 1 x EBI-20 interface
- 1 x USB cable
